A Message from the CEO

As we mark the end of 2023, I am proud to highlight the successes that Horizons ETFs has achieved this year, within our business and for our investors. Through 2024 and beyond, we remain committed to helping Canadians navigate and harness the emerging trends shaping markets while delivering exceptional investment solutions and client experiences.

While global uncertainty and economic pressures have resulted in market volatility, Canada's ETF industry continues to grow. As at December 31, 2023, Canada's ETF industry accumulated approximately \$40 billion of in-flows during the year.

At Horizons ETFs, our assets under management swelled from approximately \$22.9 billion at the end of 2022 to over \$30 billion at the end of 2023 – an increase of more than \$7.6 billion, the largest year-over-year growth in the firm's history. We continued to solidify our position as a leading Canadian ETF provider, with more than \$5.5 billion in ETF in-flows this year.

We are also committed to our longstanding commitment to bringing innovative ETFs to market. In April, we launched Canada's first ETFs that provide exclusive exposure to Canadian and U.S. 0-3-month Treasury Bills, respectively the Horizons 0-3 Month T-Bill ETF ("**CBIL**") and the Horizons 0-3 Month U.S. T-Bill ETF ("**UBIL.U**"). In July, we launched 6 ETFs as part of our Equity Essentials suite, including Canada's lowest-cost Canadian bank ETF, the Horizons Equal Weight Banks Index ETF ("**HBNK**"). In October, we launched our Premium Yield ETF suite, which provides exposure to actively-managed options programs on U.S. Treasury securities. We also expanded our suite of Asset Allocation ETFs to include first-in-Canada types of exposure in this class of ETFs.

These launches were a significant success: Horizons ETFs recorded more than \$1.8 billion in in-flows into these ETFs, making us one of the top providers in Canada for assets raised in new ETFs launched in 2023. In 2024, we intend to launch several new and innovative ETFs, offering investors more opportunities to gain and tailor their exposure to traditional and emerging asset classes. We look forward to sharing more news on these exciting products soon.

No matter what is next on the horizon, we are confident that our suite of innovative ETFs will be able to help you reach your financial goals.

At Horizons ETFs, we embrace innovation in everything that we do. From our roots as one of Canada's first ETF providers to our proud legacy of launching first-of-their-kind investment products, we are driven by boldness, vision, and a commitment to exceptional quality and client experience.

Thank you for your continued support as we work toward advancing the asset management industry toward a brighter horizon for all investors.

Sincerely,

Rohit Mehta
President & CEO of Horizons ETFs Management (Canada) Inc.

MANAGEMENT REPORT OF FUND PERFORMANCE

This annual management report of fund performance for Horizons Enhanced Equal Weight Banks Index ETF (“BNKL” or the “ETF”) contains financial highlights and is included with the audited annual financial statements for the investment fund. You may request a copy of the ETF’s unaudited interim or audited annual financial statements, interim or annual management report of fund performance, current proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosures, at no cost, from the ETF’s manager, Horizons ETFs Management (Canada) Inc. (“Horizons Management” or the “Manager”), by calling toll free 1-866-641-5739, or locally (416) 933-5745, by writing to us at: 55 University Avenue, Suite 800, Toronto ON, M5J 2H7, or by visiting our website at www.horizonsetfs.com or SEDAR+ at www.sedarplus.ca.

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance, or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements.

Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the ETF may invest and the risks detailed from time to time in the ETF’s prospectus. New risk factors emerge from time to time and it is not possible for management to predict all such risk factors. We caution that the foregoing list of factors is not exhaustive, and that when relying on forward-looking statements to make decisions with respect to investing in the ETF, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Manager does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.

Management Discussion of Fund Performance

Investment Objective and Strategies

The investment objective of BNKL is to replicate, to the extent reasonably possible and net of expenses, 1.25 times (125%) the performance of an index of equal-weighted equity securities of diversified Canadian banks (currently, the Solactive Equal Weight Canada Banks Index).

BNKL will seek to achieve its investment objective by a leverage ratio of approximately 125% through the use of cash borrowing, or as otherwise permitted under applicable securities legislation, in order to obtain exposure to approximately 1.25x the performance of its Underlying Index. In order to achieve BNKL’s investment objective and obtain direct or indirect exposure to securities of its Underlying Index’s Constituent Issuers, BNKL may invest in and hold the securities of Constituent Issuers in substantially the same proportion as they are reflected in the Underlying Index, or may invest in exchange traded funds. This may result in BNKL having more of its NAV invested in one or more issuers than is usually permitted for mutual funds. Currently, it is anticipated that BNKL will initially seek to achieve its investment objective by investing, on a leveraged basis, in securities of an exchange traded fund managed by the Manager.

BNKL may also hold cash and cash equivalents or other money market instruments in order to meet its obligations.

Management Discussion of Fund Performance (continued)

Risk

The Manager performs a review of the ETF's risk rating at least annually, as well as when there is a material change in the ETF's investment objective or investment strategies. The current risk rating for the ETF is: medium to high.

Risk ratings are determined based on the historical volatility of the ETF as measured by the standard deviation of its performance against its mean. The risk categorization of the ETF may change over time and historical volatility is not indicative of future volatility. Generally, a risk rating is assigned to the ETF based on a rolling 10-year standard deviation of its returns, the return of an underlying index, or of an applicable proxy. In cases where the Manager believes that this methodology produces a result that is not indicative of the ETF's future volatility, the risk rating may be determined by the ETF's category. Risk ratings are not intended for use as a substitute for undertaking a proper and complete suitability or financial assessment by an investment advisor.

The Manager, as a summary for existing investors, is providing the list below of the risks to which an investment in the ETF may be subject. **Prospective investors should read the ETF's most recent prospectus and consider the full description of the risks contained therein before purchasing units.**

The risks to which an investment in the ETF is subject are listed below and have not changed from the list of risks found in the ETF's most recent prospectus. A full description of each risk listed below may also be found in the most recent prospectus. The most recent prospectus is available at www.horizonsetfs.com or from www.sedarplus.ca, or by contacting Horizons ETFs Management (Canada) Inc. directly via the contact information on the back page of this document.

Management Discussion of Fund Performance (continued)

Results of Operations

The Solactive Equal Weight Canada Banks Index (Total Return) includes TSX-listed common shares of Canadian banks. Constituent Issuers are subject to minimum market capitalization and liquidity screens. Constituent issuers are equally weighted at each rebalancing.

General Market Review

Canadian equities as measured by the S&P/TSX Capped Composite Index, returned 12.05% in 2023. The significant positive performing sectors were Information Technology and Real Estate, while the only negative contributing sectors were Communication Services and Materials.

The Bank of Canada ("BoC") raised the interest rate by 25 basis points (bps) in 3 out of 8 meetings this year, leaving the overnight rate at 5.0% by the end of the year. In their latest meeting in December, the BoC decided to hold the overnight rate as they highlighted a cooling labour market where the job creation has been slower; the unemployment rate slightly increased to 5.5% as of September 2023. The BoC also commented on the improvement in inflation where they stated that the slowdown in the Canadian economy is reducing inflationary pressures. However, they were still concerned about the risks of the outlook for inflation and are willing to raise the policy rate further if necessary.

The Canadian Consumer Price Index (CPI) rose 3.1% year over year. The price of oil, measured by West Texas Intermediate Oil (WTI) returned -6.7% for the year finishing at US\$72 per barrel; it reached a low of US\$67 and peaked at US\$93 per barrel. This was a volatile year for oil which was driven by geopolitical turmoil and uncertainties about the oil output levels by producers around the world.

Gold Prices rose by 12% breaking the 2100 level this year and ending the year at \$US2065 per ounce. This was largely driven by the central banks' increased gold buying where they collectively bought ~800 tonnes of gold over the first three quarters of the year.

Canadian bank stocks trended lower for the majority of the first 3 quarters largely due to higher interest rates, which led to: lower trading activity, increased costs for the banks, and increased provisions for bad loans. However, towards the end of the year, the equity markets rallied resulting in positive year-to-date returns for all 6 banks held in the fund.

Portfolio Review

The fund targets 125% exposure to the Horizons Equal Weight Canadian ETF (HBNK) before funding fees and therefore, results in the same equity and option exposure as HBNK.

Please reference the HBNK Management Report of Fund Performance for its Portfolio Review.

Outlook

With fears of a recession, higher inflation, and the ongoing conflict in Europe, more volatility is expected. Central banks will likely face a fine line between containing rising price levels and sending the economy into a recessionary slowdown. With consumer and investor sentiment near decade lows, it will be a difficult task, but could also lead to sharp moves higher should the situation improve. Rising rates could also have an impact on the housing market in Canada, which would further add volatility for Canadian banks.

Management Discussion of Fund Performance (continued)

Option premiums were volatile in the first half of the year and closed higher. The second half of the year saw volatility slide slightly. Risk premiums will continue to be monitored to apply appropriate coverage levels throughout the cycle. Continuing uncertainty surrounding inflation, interest rates, COVID-19, supply chain disruptions, and economic realities may continue to keep option premiums elevated. The covered call strategy is favourably positioned to potentially provide value from a yield, hedging and upside capture perspective in the current environment.

For 2024, the covered call strategy is favourably positioned to potentially provide value from a yield, hedging and upside capture perspective in the current environment. Each month, call options are dynamically written on the underlying stocks held by the ETF. Option yields for Canadian Banks trended lower in 2023 versus the prior year. Each month, the fund writes ATM options which yielded roughly 6.0% for the fund in 2023. The monthly premiums generated for the year showed consistency in the second half of the year and may remain stable into 2024.

Other Operating Items and Changes in Net Assets Attributable to Holders of Redeemable Units

For the period from when the ETF effectively began operations on July 5, 2023 to December 31, 2023, the ETF generated gross comprehensive income (loss) from investments and derivatives (which includes changes in the fair value of the ETF's portfolio) of \$888,094. The ETF incurred management, operating and transaction expenses of \$72,037 of which \$15,276 was either paid or absorbed by the Manager on behalf of the ETF. The waiving and/or absorption of such fees and/or expenses by the Manager may be terminated at any time, or continued indefinitely, at the discretion of the Manager.

The ETF distributed \$199,551 to unitholders during the period.

Leverage

The ETF is classified as an "alternative mutual fund" as defined in National Instrument 81-102 ("NI 81-102"). As an alternative mutual fund, the ETF is permitted to lever its assets per the restrictions outlined in NI 81-102. The ETF measures leverage in terms of the total underlying notional value of the securities as a ratio of the total assets held by the ETF. Although NI 81-102 allows the ETF to use leverage of up to 300% its net asset value ("NAV"), the maximum aggregate exposure of the ETF to leverage used directly or indirectly will not exceed 33% of its NAV. In order to ensure that a unitholder's risk is limited to the capital invested, the ETF's leverage is regularly monitored in order to maintain a leverage ratio of approximately 125%. If the leverage ratio used by the ETF exceeds 133%, the ETF will, as quickly as commercially reasonable, take all necessary steps to reduce the leverage ratio to 125% of the ETF's NAV.

The leverage of the ETF is created through the use of cash borrowing. The ETF has entered into a margin agreement in which cash is borrowed against collateral on deposit with its prime broker (wholly owned Canadian chartered banks). All cash borrowing is repayable upon demand by the prime broker. Interest is calculated based on an interest rate equal to the current Bank of Canada overnight lending rate plus an interest rate spread. As at December 31, 2023, the total cash borrowed was \$2,692,456. Interest expense from the period since inception on June 28, 2023 to December 31, 2023 was \$42,061.

The table below indicate the minimum and maximum leverage for the period since inception to December 31, 2023, as well the leverage at the end of the reporting period and as a percentage of the ETF's net assets.

Period Ended	Minimum Leverage	Maximum Leverage	Leverage at end of Reporting Period	Approximate Percentage of Net Assets
December 31, 2023	1.23:1	1.27:1	1.25:1	125%

Management Discussion of Fund Performance (continued)**Presentation**

The attached financial statements have been prepared in accordance with IFRS Accounting Standards ("IFRS") as issued by the International Accounting Standards Board. Any mention of total net assets, net assets, net asset value or increase (decrease) in net assets in the financial statements and/or management report of fund performance is referring to net assets or increase (decrease) in net assets attributable to holders of redeemable units as reported under IFRS.

Recent Developments

Other than indicated below, there are no recent industry, management or ETF related developments that are pertinent to the present and future of the ETF.

Name Change

On March 6, 2024, Horizons ETFs Management (Canada) Inc., the investment manager of the ETF, announced that it will rebrand as Global X Investment Canada Inc., in May 2024. The name change is not expected to change any of the day-to-day operations of the ETF. The operations, personnel and responsibilities of the Investment Manager remain unchanged.

Related Party Transactions

Certain services have been provided to the ETF by related parties and those relationships are described below.

Manager, Trustee and Investment Manager

The manager, trustee and investment manager of the ETF is Horizons ETFs Management (Canada) Inc., 55 University Avenue, Suite 800, Toronto, Ontario, M5J 2H7, a corporation incorporated under the laws of Ontario.

If the ETF invests in other Horizons Management ETFs, Horizons Management may receive management fees in respect of the ETF's assets invested in such Horizons Management ETFs. In addition, any management fees paid to the Manager (described in detail on page 14) are related party transactions, as the Manager is considered to be a related party to the ETF. Fees paid to the Independent Review Committee are also considered to be related party transactions. Both the management fees and fees paid to the Independent Review Committee are disclosed in the statement of comprehensive income in the attached financial statements of the ETF. The management fees payable by the ETF as at December 31, 2023, are disclosed in the statement of financial position.

Financial Highlights

The following tables show selected key financial information about the ETF and are intended to help you understand the ETF's financial performance since it effectively began operations on July 5, 2023. This information is derived from the ETF's audited annual financial statements. Please see the front page for information on how you may obtain the ETF's annual or interim financial statements.

The ETF's Net Assets per Unit

Period ⁽¹⁾	2023
Net assets, beginning of period	\$ 20.00
Increase (decrease) from operations:	
Total revenue	0.67
Total expenses	(0.18)
Realized gains (losses) for the period	(0.29)
Unrealized gains (losses) for the period	2.39
Total increase (decrease) from operations ⁽²⁾	2.59
Distributions:	
From dividends	(0.06)
From return of capital	(0.53)
Total distributions ⁽³⁾	(0.59)
Net assets, end of period ⁽⁴⁾	\$ 21.06

1. This information is derived from the ETF's audited annual financial statement.

2. Net assets per unit and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period.

3. Income, dividend and/or return of capital distributions, if any, are paid in cash, reinvested in additional units of the ETF, or both. Capital gains distributions, if any, may or may not be paid in cash. Non-cash capital gains distributions are reinvested in additional units of the ETF and subsequently consolidated. They are reported as taxable distributions and increase each unitholder's adjusted cost base for their units. Neither the number of units held by the unitholder, nor the net asset per unit of the ETF change as a result of any non-cash capital gains distributions. Distributions classified as return of capital, if any, decrease each unitholder's adjusted cost base for their units. The characteristics of distributions, if any, are determined subsequent to the end of the ETF's tax year. Until such time, distributions are classified as from net investment income (excluding dividends) for reporting purposes.

4. The Financial Highlights are not intended to act as a continuity of the opening and closing net assets per unit.

Financial Highlights (continued)

Ratios and Supplemental Data

Period ⁽¹⁾	2023
Total net asset value (000's)	\$ 11,057
Number of units outstanding (000's)	525
Management expense ratio ^{(2)/(5)}	1.85%
Management expense ratio excluding proportion of expenses from underlying investment funds	1.85%
Management expense ratio before waivers and absorptions ⁽³⁾	2.36%
Trading expense ratio ^{(4)/(5)}	0.04%
Trading expense ratio excluding proportion of costs from underlying investment funds	0.04%
Portfolio turnover rate ⁽⁶⁾	56.33%
Net asset value per unit, end of period	\$ 21.06
Closing market price	\$ 21.04

1. This information is provided as at December 31, 2023.
2. Management expense ratio is based on total expenses, including sales tax, (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. Out of its management fees, and waivers and absorptions, as applicable, the Manager pays for such services to the ETF as investment manager compensation and marketing.
3. The Manager, at its discretion, may waive and/or absorb a portion of the fees and/or expenses otherwise payable by the ETF. The waiving and/or absorption of such fees and/or expenses by the Manager may be terminated at any time, or continued indefinitely, at the discretion of the Manager.
4. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
5. The ETF's management expense ratio (MER) and trading expense ratio (TER) include an estimated proportion of the MER and TER for any underlying investment funds held in the ETF's portfolio during the period.
6. The ETF's portfolio turnover rate indicates how actively its portfolio investments are traded. A portfolio turnover rate of 100% is equivalent to the ETF buying and selling all of the securities in its portfolio once in the course of the year. Generally, the higher the ETF's portfolio turnover rate in a year, the greater the trading costs payable by the ETF in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the ETF.

Financial Highlights (continued)**Management Fees**

The Manager provides, or oversees the provision of, administrative services required by the ETF including, but not limited to: negotiating contracts with certain third-party service providers, such as portfolio managers, custodians, registrars, transfer agents, auditors and printers; authorizing the payment of operating expenses incurred on behalf of the ETF; arranging for the maintenance of accounting records for the ETF; preparing reports to unitholders and to the applicable securities regulatory authorities; calculating the amount and determining the frequency of distributions by the ETF; preparing financial statements, income tax returns and financial and accounting information as required by the ETF; ensuring that unitholders are provided with financial statements and other reports as are required from time to time by applicable law; ensuring that the ETF complies with all other regulatory requirements, including the continuous disclosure obligations of the ETF under applicable securities laws; administering purchases, redemptions and other transactions in units of the ETF; and dealing and communicating with unitholders of the ETF. The Manager provides office facilities and personnel to carry out these services, if not otherwise furnished by any other service provider to the ETF. The Manager also monitors the investment strategies of the ETF to ensure that the ETF complies with its investment objectives, investment strategies and investment restrictions and practices.

In consideration for the provision of these services, the Manager receives a monthly management fee at the annual rate of 0.35%, plus applicable sales taxes, of the net asset value of the ETF's units, calculated and accrued daily and payable monthly in arrears.

Any expenses of the ETF which are waived or absorbed by the Manager are paid out of the management fees received by the Manager.

The Manager paid substantially more than 100% of the management fees it received from the ETF during the period towards marketing and promotional costs, and towards the fees associated with the managerial, portfolio management and portfolio advisory services provided to the ETF.

Past Performance

Past performance information is not presented for the ETF as it has not been in continuous operation for one full calendar year.

MANAGER'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying audited annual financial statements of Horizons Enhanced Equal Weight Banks Index ETF (the "ETF") are the responsibility of the manager and trustee to the ETF, Horizons ETFs Management (Canada) Inc. (the "Manager"). They have been prepared in accordance with IFRS Accounting Standards ("IFRS") as issued by the International Accounting Standards Board using information available and include certain amounts that are based on the Manager's best estimates and judgements.

The Manager has developed and maintains a system of internal controls to provide reasonable assurance that all assets are safeguarded and to produce relevant, reliable and timely financial information, including the accompanying financial statements.

These financial statements have been approved by the Board of Directors of the Manager and have been audited by KPMG LLP, Chartered Professional Accountants, Licensed Public Accountants, on behalf of unitholders. The independent auditor's report outlines the scope of their audit and their opinion on the financial statements.

INDEPENDENT AUDITOR'S REPORT

To the Unitholders of Horizons Enhanced Equal Weight Banks Index ETF (the "ETF")

Opinion

We have audited the financial statements of the ETF, which comprise the statement of financial position as at December 31, 2023, the statement of comprehensive income, changes in financial position and cash flows for the period from inception on June 28, 2023 to December 31, 2023, and notes to the financial statements, including a summary of material accounting policy information (hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the ETF as at December 31, 2023, and its financial performance and its cash flows for the period from inception on June 28, 2023 to December 31, 2023 in accordance with IFRS Accounting Standards ("IFRS") as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our auditor's report.

We are independent of the ETF in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. Other information comprises:

- the information included in the Management Report of Fund Performance filed with the relevant Canadian Securities Commissions.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit and remain alert for indications that the other information appears to be materially misstated.

We obtained the information included in the Management Report of Fund Performance filed with the relevant Canadian Securities Commissions as at the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditor's report.

We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the ETF’s ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the ETF or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the ETF’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the ETF’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ETF’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the ETF to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- Provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Statement of Comprehensive Income

For the Period of Inception on June 28, 2023 to December 31, 2023

		2023
Income		
Dividend income	\$	55,339
Interest income for distribution purposes		160,960
Management fees reimbursements (note 10)		67
Net realized gain (loss) on sale of investments and derivatives		(92,862)
Net change in unrealized appreciation (depreciation) of investments and derivatives		764,590
		888,094
Expenses (note 10)		
Management fees		11,816
Audit fees		1,759
Independent Review Committee fees		469
Custodial and fund valuation fees		617
Securityholder reporting costs		9,041
Administration fees		5,118
Interest expenses		42,061
Transaction costs		1,137
Other expenses		19
		72,037
Amounts that were payable by the investment fund that were paid or absorbed by the Manager		(15,276)
		56,761
Increase (decrease) in net assets for the period	\$	831,333
Increase (decrease) in net assets per unit	\$	2.59

(See accompanying notes to financial statements)

Statement of Changes in Financial Position

For the Period of Inception on June 28, 2023 to December 31, 2023

		2023
Total net assets at the beginning of the period	\$	–
Increase (decrease) in net assets		831,333
Redeemable unit transactions		
Proceeds from the issuance of securities of the investment fund		11,869,628
Aggregate amounts paid on redemption of securities of the investment fund		(1,444,979)
Securities issued on reinvestment of distributions		73
Distributions:		
From net investment income		(19,993)
Return of Capital		(179,558)
Total net assets at the end of the period	\$	11,056,504

(See accompanying notes to financial statements)

Statement of Cash Flows

For the Period of Inception on June 28, 2023 to December 31, 2023

		2023
Cash flows from operating activities:		
Increase (decrease) in net assets for the period	\$	831,333
Adjustments for:		
Net realized (gain) loss on sale of investments and derivatives		92,862
Net change in unrealized (appreciation) depreciation of investments and derivatives		(764,590)
Purchase of investments		(5,338,857)
Proceeds from the sale of investments		2,816,616
Amounts receivable relating to accrued income		(55,339)
Accrued expenses		3,916
Net cash from (used in) operating activities		(2,414,059)
Cash flows from financing activities:		
Amount received from the issuance of units		(436,991)
Amount paid on redemptions of units		357,544
Distributions paid to unitholders		(149,603)
Loan facility		2,692,456
Net cash from (used in) financing activities		2,463,406
Net increase (decrease) in cash and cash equivalents during the period		49,347
Cash and cash equivalents at beginning of period		–
Cash and cash equivalents at end of period	\$	49,347
Interest received, net of withholding taxes	\$	160,960
Interest paid	\$	41,652

(See accompanying notes to financial statements)

Notes to Financial Statements

For the Period of Inception on June 28, 2023 to December 31, 2023

1. REPORTING ENTITY

Horizons Enhanced Equal Weight Banks Index ETF ("BNKL" or the "ETF") is an investment trust established under the laws of the Province of Ontario by Declaration of Trust and effectively began operations on July 5, 2023. The address of the ETF's registered office is: c/o Horizons ETFs Management (Canada) Inc., 55 University Avenue, Suite 800, Toronto, Ontario, M5J 2H7.

The ETF is offered for sale on a continuous basis by its prospectus in Class A units ("Class A") which trade on the Toronto Stock Exchange ("TSX") under the symbol BNKL. An investor may buy or sell units of the ETF on the TSX only through a registered broker or dealer in the province or territory where the investor resides. Investors are able to trade units of the ETF in the same way as other securities traded on the TSX, including by using market orders and limit orders and may incur customary brokerage commissions when buying or selling units.

The investment objective of BNKL is to replicate, to the extent reasonably possible and net of expenses, 1.25 times (125%) the performance of an index of equal-weighted equity securities of diversified Canadian banks (currently, the Solactive Equal Weight Canada Banks Index).

Horizons ETFs Management (Canada) Inc. is the manager, trustee and investment manager of the ETF ("Horizons Management", the "Manager" or the "Investment Manager"). The Investment Manager is responsible for implementing the ETF's investment strategies.

2. BASIS OF PREPARATION

(i) Statement of compliance

The financial statements have been prepared in accordance with IFRS Accounting Standards ("IFRS") as issued by the International Accounting Standards Board. Any mention of total net assets, net assets, net asset value or increase (decrease) in net assets is referring to net assets or increase (decrease) in net assets attributable to holders of redeemable units as reported under IFRS.

These financial statements were authorized for issue on March 13, 2024, by the Board of Directors of the Manager.

(ii) Basis of measurement

The financial statements have been prepared on the historical cost basis except for financial instruments at fair value though profit or loss, which are measured at fair value.

(iii) Functional and presentation currency

The financial statements are presented in Canadian dollars, which is the ETF's functional currency.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

Notes to Financial Statements (continued)

For the Period of Inception on June 28, 2023 to December 31, 2023

(a) Financial instruments***(i) Recognition, initial measurement and classification***

The ETF is subject to IFRS 9, Financial Instruments ("IFRS 9") for the classification and measurement requirements for financial instruments, including impairment of financial assets and hedge accounting.

IFRS 9 requires financial assets to be classified based on the ETF's business model for managing the financial assets and contractual cash flow characteristics of the financial assets. The standard includes three principal classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income, and fair value through profit or loss ("FVTPL"). IFRS 9 requires classification of debt instruments, if any, based solely on payments of principal and interests, and business model tests.

The ETF's financial assets and financial liabilities are managed and its performance is evaluated on a fair value basis. The contractual cash flows of the ETF's debt securities, if any, consist solely of principal and interest, however, these securities are neither held in held-to-collect, or held-to-collect-and-sell business models in IFRS 9.

Financial assets and financial liabilities at FVTPL are initially recognized on the trade date, at fair value (see below), with transaction costs recognized in the statements of comprehensive income. Other financial assets and financial liabilities are recognized on the date on which they are originated at fair value.

The ETF classifies financial assets and financial liabilities into the following categories:

- Financial assets mandatorily classified at FVTPL: debt securities, equity investments and derivative financial instruments
- Financial assets at amortized cost: all other financial assets
- Financial liabilities classified at FVTPL: derivative financial instruments and securities sold short, if any
- Financial liabilities at amortized cost: all other financial liabilities

(ii) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the ETF has access at that date. The fair value of a liability reflects its non-performance risk.

Investments are valued at fair value as of the close of business on each day upon which a session of the TSX is held ("Valuation Date") and based on external pricing sources to the extent possible. Investments held that are traded in an active market through recognized public stock exchanges, over-the-counter markets, or through recognized investment dealers, are valued at their closing sale price. However, such prices may be adjusted if a more accurate value can be obtained from recent trading activity or by incorporating other relevant information that may not have been reflected in pricing obtained from external sources. Short-term investments, including notes and money market instruments, are valued at amortized cost which approximates fair value.

Investments held that are not traded in an active market, including some derivative financial instruments, are valued using observable market inputs where possible, on such basis and in such manner as established by the Manager. Derivative financial instruments are recorded in the statements of financial position according to the gain or loss that would be realized if the contracts were closed out on the Valuation Date. Margin deposits, if any, are included in the schedule of investments as margin deposits. See also, the summary of fair value measurements in note 6.

Notes to Financial Statements (continued)

For the Period of Inception on June 28, 2023 to December 31, 2023

Fair value policies used for financial reporting purposes are the same as those used to measure the net asset value ("NAV") for transactions with unitholders.

The fair value of other financial assets and liabilities approximates their carrying values due to the short-term nature of these instruments.

(iii) Offsetting

Financial assets and liabilities are offset and the net amount presented in the statements of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis for gains and losses from financial instruments at FVTPL and foreign exchange gains and losses.

(iv) Specific instruments**Cash and cash equivalents**

Cash and cash equivalents consist of cash on deposit and short-term, interest bearing notes with a term to maturity of less than three months from the date of purchase.

Forward foreign exchange contracts

Forward foreign exchange contracts, if any, are valued at the current market value thereof on the Valuation Date. The value of these forward contracts is the gain or loss that would be realized if, on the Valuation Date, the positions were to be closed out and recorded as derivative assets and/or liabilities in the statements of financial position and as a net change in unrealized appreciation (depreciation) of investments and derivatives in the statements of comprehensive income. When the forward contracts are closed out or mature, realized gains or losses on forward contracts are recognized and are included in the statements of comprehensive income in net realized gain (loss) on sale of investments and derivatives. The Canadian dollar value of forward foreign exchange contracts is determined using forward currency exchange rates supplied by an independent service provider.

Redeemable units

The redeemable units are measured at the present value of the redemption amounts and are considered a residual amount of the net assets attributable to holders of redeemable units. They are classified as financial liabilities as a result of the ETF's requirement to distribute net income and capital gains to unitholders.

(b) Investment income

Investment transactions are accounted for as of the trade date. Realized gains and losses from investment transactions are calculated on a weighted average cost basis. The difference between fair value and average cost, as recorded in the financial statements, is included in the statement of comprehensive income as part of the net change in unrealized appreciation (depreciation) of investments and derivatives. Interest income for distribution purposes from investments in bonds and short-term investments represents the coupon interest received by the ETF accounted for on an accrual basis.

Notes to Financial Statements (continued)

For the Period of Inception on June 28, 2023 to December 31, 2023

Dividend income is recognized on the ex-dividend date. Distribution income from investments in other funds or ETFs is recognized when earned.

Income from derivatives is shown in the statement of comprehensive income as net realized gain (loss) on sale of investments and derivatives; net change in unrealized appreciation (depreciation) of investments and derivatives; and, interest income for distribution purposes, in accordance with its nature.

Income from securities lending, if any, is included in "Securities lending income" on the statement of comprehensive income and is recognized when earned. Any securities on loan continue to be displayed in the schedule of investments and the market value of the securities loaned and collateral held is determined daily (see note 7).

If the ETF incurs withholding taxes imposed by certain countries on investment income and capital gains, such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense in the statement of comprehensive income.

(c) Foreign currency

Transactions in foreign currencies are translated into the ETF's reporting currency using the exchange rate prevailing on the trade date. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated at the period-end exchange rate. Foreign exchange gains and losses are presented as "Net realized gain (loss) on foreign exchange", except for those arising from financial instruments at fair value through profit or loss, which are recognized as a component within "Net realized gain (loss) on sale of investments and derivatives" and "Net change in unrealized appreciation (depreciation) of investments and derivatives" in the statement of comprehensive income.

(d) Cost basis

The cost of portfolio investments is determined on an average cost basis.

(e) Increase (decrease) in net assets attributable to holders of redeemable units per unit

The increase (decrease) in net assets per unit in the statement of comprehensive income represents the change in net assets attributable to holders of redeemable units from operations divided by the weighted average number of units of the ETF outstanding during the reporting period.

(f) Unitholder transactions

The value at which units are issued or redeemed is determined by dividing the net asset value of the ETF by the total number of units outstanding of the ETF on the applicable Valuation Date. Amounts received on the issuance of units and amounts paid on the redemption of units are included in the statement of changes in financial position. Orders for subscriptions or redemptions are only permissible on valid trading days, as defined in the ETF's prospectus.

(g) Amounts receivable (payable) relating to portfolio assets sold (purchased)

In accordance with the ETF's policy of trade date accounting for sale and purchase transactions, sales/purchase transactions awaiting settlement represent amounts receivable/payable for securities sold/purchased, but not yet settled as at the reporting date.

Notes to Financial Statements (continued)

For the Period of Inception on June 28, 2023 to December 31, 2023

(h) Net assets attributable to holders of redeemable units per unit

Net assets attributable to holders of redeemable units per unit is calculated by dividing the ETF's net assets attributable to holders of redeemable units by the number of units of the ETF outstanding on the Valuation Date.

(i) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment, which include fees and commissions paid to agents, advisors, brokers and dealers, levies by regulatory agencies and securities exchanges, and any applicable transfer taxes and duties. Transaction costs are expensed and are included in "Transaction costs" in the statement of comprehensive income.

(j) Changes in accounting policies

The Fund adopted Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statements 2) from January 1, 2023. Although the amendments did not result in any changes to the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

The Manager reviewed the accounting policies and amended the information disclosed in Note 3 as applicable.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In preparing these financial statements, the Manager has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively.

The ETF may hold financial instruments that are not quoted in active markets, including derivatives. The determination of the fair value of these instruments is the area with the most significant accounting judgements and estimates that the ETF has made in preparing the financial statements. See note 6 for more information on the fair value measurement of the ETF's financial instruments.

5. FINANCIAL INSTRUMENTS RISK

In the normal course of business, the ETF's investment activities expose it to a variety of financial risks. The Manager seeks to minimize potential adverse effects of these risks for the ETF's performance by employing professional, experienced portfolio advisors, by daily monitoring of the ETF's positions and market events, and periodically may use derivatives to hedge certain risk exposures. To assist in managing risks, the Manager maintains a governance structure that oversees the ETF's investment activities and monitors compliance with the ETF's stated investment strategies, internal guidelines and securities regulations.

Please refer to the most recent prospectus for a complete discussion of the risks attributed to an investment in the units of the ETF. Significant financial instrument risks that are relevant to the ETF, and analysis thereof, are presented below.

Notes to Financial Statements (continued)

For the Period of Inception on June 28, 2023 to December 31, 2023

(a) Market risk

Market risk is the risk that changes in market prices, such as interest rates, equity prices, foreign exchange rates and credit spreads (not relating to changes in the obligor's/issuer's credit standing) will affect the ETF's income or the fair value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

(i) Currency risk

Currency risk is the risk that financial instruments which are denominated in currencies other than the ETF's reporting currency, the Canadian dollar, will fluctuate due to changes in exchange rates and adversely impact the ETF's income, cash flows or fair values of its investment holdings. The ETF may reduce its foreign currency exposure through the use of derivative arrangements such as foreign exchange forward contracts or futures contracts. As at December 31, 2023, the ETF did not have any exposure to foreign currencies.

(ii) Interest rate risk

The ETF may be exposed to the risk that the fair value of future cash flows of its financial instruments will fluctuate as a result of changes in market interest rates. In general, the value of interest-bearing financial instruments will rise if interest rates fall, and conversely, will generally fall if interest rates rise. There is minimal sensitivity to interest rate fluctuation on cash and cash equivalents invested at short-term market rates since those securities are usually held to maturity and are short term in nature. The loan facility bears interest and fluctuations on interest rates would impact the amount of interest paid under the loan facility.

As at December 31, 2023, the ETF did not hold any long-term debt instruments. Assuming the same cash level borrowing as at December 31, 2023, a 1% change in interest rates would result in an increase or decrease of approximately \$7,597 to the increase (decrease) in net assets for the period.

(iii) Other market risk

Other market risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. The Manager has implemented internal risk management controls on the ETF which are intended to limit the loss on its trading activities.

The table below shows the estimated impact on the ETF of a 1% increase or decrease in a broad-based market index, based on historical correlation, with all other factors remaining constant, as at the dates shown. In practice, actual results may differ from this sensitivity analysis and the difference could be material. The historical correlation may not be representative of future correlation.

Comparative Index	December 31, 2023
S&P/TSX Composite Index™	(\$4,368)

Notes to Financial Statements (continued)

For the Period of Inception on June 28, 2023 to December 31, 2023

(b) Credit risk

Credit risk on financial instruments is the risk of a financial loss occurring as a result of the default of a counterparty on its obligation to the ETF. It arises principally from debt securities held, and also from derivative financial assets, cash and cash equivalents, and other receivables. The ETF's maximum credit risk exposure as at the reporting date is represented by the respective carrying amounts of the financial assets in the statement of financial position. The ETF's credit risk policy is to minimize its exposure to counterparties with perceived higher risk of default by dealing only with counterparties that meet the credit standards set out in the ETF's prospectus and, when necessary, receiving acceptable collateral.

As at December 31, 2023, due to the nature of its portfolio investments, the ETF did not have any material credit risk exposure.

(c) Liquidity risk

Liquidity risk is the risk that the ETF will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The ETF's policy and the Investment Manager's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stress conditions, including estimated redemptions of shares, without incurring unacceptable losses or risking damage to the ETF's reputation. Generally, liabilities of the ETF are due within 90 days. Liquidity risk is managed by investing the majority of the ETF's assets in investments that are traded in an active market and can be readily disposed. The ETF aims to retain sufficient cash and cash equivalent positions to maintain liquidity; therefore, the liquidity risk for the ETF is considered minimal.

6. FAIR VALUE MEASUREMENT

Below is a classification of fair value measurements of the ETF's investments based on a three level fair value hierarchy and a reconciliation of transactions and transfers within that hierarchy. The hierarchy of fair valuation inputs is summarized as follows:

- Level 1: securities that are valued based on quoted prices in active markets.
- Level 2: securities that are valued based on inputs other than quoted prices that are observable, either directly as prices, or indirectly as derived from prices.
- Level 3: securities that are valued with significant unobservable market data.

Changes in valuation methods may result in transfers into or out of an investment's assigned level. The following is a summary of the inputs used as at December 31, 2023, in valuing the ETF's investments and derivatives carried at fair values:

	December 31, 2023		
	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)
Financial Assets			
Exchange Traded Funds	13,815,769	–	–
Total Financial Assets	13,815,769	–	–
Total Financial Liabilities	–	–	–
Net Financial Assets and Liabilities	13,815,769	–	–

Notes to Financial Statements (continued)

For the Period of Inception on June 28, 2023 to December 31, 2023

There were no significant transfers made between Levels 1 and 2 as a result of changes in the availability of quoted market prices or observable market inputs during the period shown. In addition, there were no investments or transactions classified in Level 3 for the period ended December 31, 2023.

7. SECURITIES LENDING

In order to generate additional returns, the ETF is authorized to enter into securities lending agreements with borrowers deemed acceptable in accordance with National Instrument 81-102 – *Investment Funds* (“NI 81-102”). Under a securities lending agreement, the borrower must pay the ETF a negotiated securities lending fee, provide compensation to the ETF equal to any distributions received by the borrower on the securities borrowed, and the ETF must receive an acceptable form of collateral in excess of the value of the securities loaned. Although such collateral is marked to market, the ETF may be exposed to the risk of loss should a borrower default on its obligations to return the borrowed securities and the collateral is insufficient to reconstitute the portfolio of loaned securities. Revenue, if any, earned on securities lending transactions during the period is disclosed in the ETF’s statement of comprehensive income.

As at December 31, 2023, the ETF was not participating in any securities lending transactions. For the period ended December 31, 2023, the ETF did not earn any income from securities lending transactions.

8. LEVERAGE

The ETF is classified as an “alternative mutual fund” as defined in National Instrument 81-102 (“NI 81-102”). As an alternative mutual fund, the ETF is permitted to lever its assets per the restrictions outlined in NI 81-102. The ETF measures leverage in terms of the total underlying notional value of the securities as a ratio of the total assets held by the ETF. Although NI 81-102 allows the ETF to use leverage of up to 300% its net asset value (“NAV”), the maximum aggregate exposure of the ETF to leverage used directly or indirectly will not exceed 33% of its NAV. In order to ensure that a unitholder’s risk is limited to the capital invested, the ETF’s leverage is regularly monitored in order to maintain a leverage ratio of approximately 125%. If the leverage ratio used by the ETF exceeds 133%, the ETF will, as quickly as commercially reasonable, take all necessary steps to reduce the leverage ratio to 125% of the ETF’s NAV.

The leverage of the ETF is created through the use of cash borrowing. The ETF has entered into a margin agreement in which cash is borrowed against collateral on deposit with its prime broker (wholly owned Canadian chartered banks). All cash borrowing is repayable upon demand by the prime broker. Interest is calculated based on an interest rate equal to the current Bank of Canada overnight lending rate plus an interest rate spread. As at December 31, 2023, the total cash borrowed was \$2,692,456. Interest expense from the period since inception on June 28, 2023 to December 31, 2023 was \$42,061.

The table below indicate the minimum and maximum leverage for the period since inception to December 31, 2023, as well the leverage at the end of the reporting period and as a percentage of the ETF’s net assets.

Period Ended	Minimum Leverage	Maximum Leverage	Leverage at end of Reporting Period	Approximate Percentage of Net Assets
December 31, 2023	1.23:1	1.27:1	1.25:1	125%

Notes to Financial Statements (continued)

For the Period of Inception on June 28, 2023 to December 31, 2023

9. REDEEMABLE UNITS

The ETF is authorized to issue an unlimited number of redeemable, transferable Class A units each of which represents an equal, undivided interest in the net assets of the ETF. Each unit entitles the owner to one vote at meetings of unitholders. Each unit is entitled to participate equally with all other units with respect to all payments made to unitholders, other than management fee distributions, whether by way of income or capital distributions and, on liquidation, to participate equally in the net assets of the ETF remaining after satisfaction of any outstanding liabilities that are attributable to units of that class of the ETF. All units will be fully paid and non-assessable, with no liability for future assessments, when issued and will not be transferable except by operation of law.

The redeemable units issued by the ETF provide an investor with the right to require redemption for cash at a value proportionate to the investor's share in the ETF's net assets at each redemption date. They are classified as liabilities as a result of the ETF's requirement to distribute net income and capital gains to unitholders. The ETF's objectives in managing the redeemable units are to meet the ETF's investment objective, and to manage liquidity risk arising from redemptions. The ETF's management of liquidity risk arising from redeemable units is discussed in note 5.

On any valid trading day, as defined in the ETF's prospectus, unitholders of the ETF may (i) redeem units of the ETF for cash at a redemption price per unit equal to 95% of the closing price for units of the ETF on the TSX on the effective day of the redemption, where the units being redeemed are not equal to a prescribed number of units ("PNU") or a multiple PNU; or (ii) redeem, less any applicable redemption charge as determined by the Manager in its sole discretion from time to time, a PNU or a multiple PNU of the ETF for cash equal to the net asset value of that number of units.

Units of the ETF are issued or redeemed on a daily basis at the net asset value per security that is determined as at 4:00 p.m. (Eastern Time) each business day. Purchase and redemption orders are subject to a 9:30 a.m. (Eastern Time) cut-off time.

The ETF is required to distribute any net income and capital gains that it has earned in the period. Income earned by the ETF is distributed to unitholders at least once per year, if necessary, and these distributions are either paid in cash or reinvested by unitholders into additional units of the ETF. Net realized capital gains, if any, are typically distributed in December of each year to unitholders. The annual capital gains distributions are not paid in cash but rather, are reinvested and reported as taxable distributions and used to increase each unitholder's adjusted cost base for the ETF. Distributions paid to holders of redeemable units are recognized in the statements of changes in financial position.

Please consult the ETF's most recent prospectus for a full description of the subscription and redemption features of the ETF's units.

For the period ended December 31, 2023, the number of units issued by subscription and/or distribution reinvestment, the number of units redeemed, the total and average number of units outstanding was as follows:

Period	Beginning Units Outstanding	Units Issued	Units Redeemed	Ending Units Outstanding	Average Units Outstanding
2023	–	600,003	(75,000)	525,003	320,835

Notes to Financial Statements (continued)

For the Period of Inception on June 28, 2023 to December 31, 2023

10. EXPENSES**Management fees**

The Manager provides, or oversees the provision of, administrative services required by the ETF including, but not limited to: negotiating contracts with certain third-party service providers, such as portfolio managers, custodians, registrars, transfer agents, auditors and printers; authorizing the payment of operating expenses incurred on behalf of the ETF; arranging for the maintenance of accounting records for the ETF; preparing reports to unitholders and to the applicable securities regulatory authorities; calculating the amount and determining the frequency of distributions by the ETF; preparing financial statements, income tax returns and financial and accounting information as required by the ETF; ensuring that unitholders are provided with financial statements and other reports as are required from time to time by applicable law; ensuring that the ETF complies with all other regulatory requirements, including the continuous disclosure obligations of the ETF under applicable securities laws; administering purchases, redemptions and other transactions in units of the ETF; and dealing and communicating with unitholders of the ETF. The Manager provides office facilities and personnel to carry out these services, if not otherwise furnished by any other service provider to the ETF. The Manager also monitors the investment strategies of the ETF to ensure that the ETF complies with its investment objectives, investment strategies and investment restrictions and practices.

In consideration for the provision of these services, the Manager receives a monthly management fee at the annual rate of 0.35%, plus applicable sales taxes, of the net asset value of the ETF's units, calculated and accrued daily and payable monthly in arrears. Any expenses of the ETF which are waived or absorbed by the Manager are paid out of the management fees received by the Manager.

Other expenses

Unless otherwise waived or reimbursed by the Manager, the ETF pays all of its operating expenses, including but not limited to: audit fees; trustee and custodial expenses; valuation, accounting and record keeping costs; legal expenses; permitted prospectus preparation and filing expenses; costs associated with delivering documents to unitholders; listing and annual stock exchange fees; index licensing fees, if applicable; fees payable to CDS Clearing and Depository Services Inc.; bank related fees and interest charges; extraordinary expenses; unitholder reports and servicing costs; registrar and transfer agent fees; costs associated with the Independent Review Committee; income taxes; sales taxes; brokerage expenses and commissions; withholding taxes; and fees payable to service providers in connection with regulatory compliance and tax matters in foreign jurisdictions.

The Manager, at its discretion, may waive and/or absorb a portion of the fees and/or expenses otherwise payable by the ETF. The waiving and/or absorption of such fees and/or expenses by the Manager may be terminated at any time, or continued indefinitely, at the discretion of the Manager.

Management fee reimbursements

Where the ETF holds other exchange traded funds offered for sale by the Manager or its affiliates, the ETF may be reimbursed by such ETFs it has invested in for any management fees charged by those ETFs that would be considered as duplicating the management fees of the ETF.

Notes to Financial Statements (continued)

For the Period of Inception on June 28, 2023 to December 31, 2023

11. BROKER COMMISSIONS, SOFT DOLLARS AND RELATED PARTY TRANSACTIONS

Brokerage commissions paid on securities transactions may include amounts paid to related parties of the Manager for brokerage services provided to the ETF.

Research and system usage related services received in return for commissions generated with specific dealers are generally referred to as soft dollars.

Brokerage commissions paid to dealers in connection with investment portfolio transactions, soft dollar transactions incurred and amounts paid to related parties of the Manager, if any, for the period ended December 31, 2023, were as follows:

Period Ended	Brokerage Commissions Paid	Soft Dollar Transactions	Amount Paid to Related Parties
December 31, 2023	\$722	\$nil	\$nil

In addition to the information contained in the table above, the management fees paid to the Manager described in note 10 are related party transactions, as the Manager is considered to be a related party to the ETF. Fees paid to the Independent Review Committee are also considered to be related party transactions. Both the management fees and fees paid to the Independent Review Committee are disclosed in the statement of comprehensive income. The management fees payable by the ETF as at December 31, 2023 are disclosed in the statement of financial position.

The ETF may invest in other ETFs managed by the Manager or its affiliates, in accordance with the ETF's investment objectives and strategies. Such investments, if any, are disclosed in the schedule of investments.

12. INCOME TAX

The ETF has qualified as a mutual fund trust under the *Income Tax Act* (Canada) (the "Tax Act") and accordingly, is not taxed on the portion of taxable income that is paid or allocated to unitholders. As well, tax refunds (based on redemptions and realized and unrealized gains during the period) may be available that would make it possible to retain some net capital gains in the ETF without incurring any income taxes.

13. TAX LOSSES CARRIED FORWARD

Capital losses for income tax purposes may be carried forward indefinitely and applied against capital gains realized in future years. Non-capital losses carried forward may be applied against future years' taxable income. Non-capital losses that are realized in the current taxation year may be carried forward for 20 years. As at December 31, 2023, the ETF had net capital losses and/or non-capital losses, with the year of expiry of the non-capital losses as follows:

Net Capital Losses	Non-Capital Losses	Year of Expiry of the Non-Capital Losses
\$15,916	–	–

Notes to Financial Statements (continued)

For the Period of Inception on June 28, 2023 to December 31, 2023

14. OFFSETTING OF FINANCIAL INSTRUMENTS

In the normal course of business, the ETF may enter into various master netting arrangements or other similar agreements that do not meet the criteria for offsetting in the statement of financial position but still allow for the related amounts to be set off in certain circumstances, such as bankruptcy or termination of the contracts. As at December 31, 2023, the ETF did not have any financial instruments eligible for offsetting.

15. INTERESTS IN SUBSIDIARIES, ASSOCIATES AND UNCONSOLIDATED STRUCTURED ENTITIES

The ETF may invest in units of other ETFs as part of its investment strategies ("Investee ETF(s)"). The nature and purpose of these Investee ETFs generally, is to manage assets on behalf of third party investors in accordance with their investment objectives, and are financed through the issue of units to investors.

In determining whether the ETF has control or significant influence over an Investee ETF, the ETF assesses voting rights, the exposure to variable returns, and its ability to use the voting rights to affect the amount of the returns. In instances where the ETF has control over an Investee ETF, the ETF qualifies as an investment entity under IFRS 10 - *Consolidated Financial Statements*, and therefore accounts for investments it controls at fair value through profit and loss. The ETF's primary purpose is defined by its investment objectives and uses the investment strategies available to it as defined in the ETF's prospectus to meet those objectives. The ETF also measures and evaluates the performance of any Investee ETFs on a fair value basis.

Investee ETFs over which the ETF has control or significant influence are categorized as subsidiaries and associates, respectively. All other Investee ETFs are categorized as unconsolidated structured entities. Investee ETFs may be managed by the Manager, its affiliates, or by third-party managers.

Investments in Investee ETFs are susceptible to market price risk arising from uncertainty about future values of those Investee ETFs. The maximum exposure to loss from interests in Investee ETFs is equal to the total fair value of the investment in those respective Investee ETFs at any given point in time. The fair value of Investee ETFs, if any, are disclosed in investments in the statement of financial position and listed in the schedule of investments. As at December 31, 2023, the ETF had material investments in the subsidiaries (Sub), associates (Assc) and unconsolidated structured entities (SE) listed below:

Investee ETF as at December 31, 2023	Place of Business	Type	Ownership %	Carrying Amount
Horizons Equal Weight Banks Index ETF	Canada	SE	1.93%	\$13,815,769

16. SUBSEQUENT EVENTS

On March 6, 2024, Horizons ETFs Management (Canada) Inc., the investment manager of the ETF, announced that it will rebrand as Global X Investment Canada Inc., in May 2024. The name change is not expected to change any of the day-to-day operations of the ETF. The operations, personnel and responsibilities of the Investment Manager remain unchanged.
