DISCLAIMER

Effective June 24, 2022, the investment objectives of the Global X S&P/TSX 60 Covered Call ETF (“CNCC”), the Global X Canadian Oil and Gas Equity Covered Call ETF (“ENCC”), the Global X Equal Weight Canadian Bank Covered Call ETF (“BKCC”), the Global X S&P 500 Covered Call ETF (“USCC.U, USCC”), the Global X NASDAQ-100 Covered Call ETF (“QQCC”), and the Global X Gold Producer Equity Covered Call ETF (“GLCC”), were changed following receipt of the required unitholder and regulatory approvals, to seek to provide exposure to the ETFs’ underlying equity portfolios and to employ a dynamic covered call option writing program. Previously, the ETFs sought exposure to an underlying equal-weight equity portfolio and generally wrote covered call options on 100% of portfolio securities. The new tickers began trading on the TSX on June 27, 2022. For more information, please refer to the disclosure documents of the ETFs on www.GlobalX.ca.

Commissions, management fees, and expenses all may be associated with an investment in products (the “Global X Funds”) managed by Global X Investments Canada Inc. The Global X Funds are not guaranteed, their values change frequently and past performance may not be repeated. Certain Global X Funds may have exposure to leveraged investment techniques that magnify gains and losses which may result in greater volatility in value and could be subject to aggressive investment risk and price volatility risk. Such risks are described in the prospectus. The prospectus contains important detailed information about the Global X Funds. Please read the relevant prospectus before investing.

Each of the Enhanced Covered Call ETFs and BCCC are alternative mutual funds within the meaning of NI 81-102 and are permitted to use strategies generally prohibited by conventional mutual funds, such as the ability to invest more than 10% of the Enhanced Covered Call ETF’s net asset value in securities of a single issuer, the ability to borrow cash and to employ leverage. While these strategies will only be used in accordance with the applicable investment objectives and strategies of the Enhanced Covered Call ETFs, during certain market conditions they may accelerate the risk that an investment in Units of such Enhanced ETF decreases in value.

The payment of distributions, if any, is not guaranteed and may fluctuate at any time. The payment of distributions should not be confused with an Exchange Traded Fund’s (“ETF”) performance, rate of return, or yield. If distributions paid by the ETF are greater than the performance of the ETF, distributions paid may include a return of capital and an investor’s original investment will decrease. A return of capital is not taxable to the investor, but will generally reduce the adjusted cost base of the securities held for tax purposes. Distributions are paid as a result of capital gains realized by an ETF, and income and dividends earned by an ETF are taxable to the investor in the year they are paid. The investor’s adjusted cost base will be reduced by the amount of any returns of capital. If the investor’s adjusted cost base goes below zero, investors will realize capital gains equal to the amount below zero. Future distribution dates may be amended at any time. To recognize that these distributions have been allocated to investors for tax purposes the amounts of these distributions should be added to the adjusted cost base of the units held. The characterization of distributions, if any, for tax purposes, (such as dividends/other income/capital gains, etc.) will not be known for certain until after the ETF’s tax year-end. Therefore, investors will be informed of the tax characterization after year-end and not with each distribution if any. For tax purposes, these amounts will be reported annually by brokers on official tax statements. Please refer to the applicable ETF distribution policy in the prospectus for more information.
